GALA GROUP

Gala Group was founded on the pillars of customer centricity, robust engineering, world-class design, meticulous planning, excellent quality, hassle-free delivery, uncompromised business ethics, transparency and, most importantly, the knowledge & satisfaction that we seek to inspire generations and enrich lives through our work and our projects. Our hope is to help usher in a better future by providing people with access to an improved quality of life.

Ikebana is our most exclusive project to date. Standing 21 floors tall with 119 residences, it is a reflection of our vision to bring world-class, differentiated luxury to the commercial capital of Gujarat. This enchanted development is enveloped by nature and offers exclusive 5 BHK apartments. The spaces are designed to resemble bungalows in the sky, giving you the privilege of living in an independent home with all the conveniences & comforts of an apartment dwelling.

Ikebana is a project that embodies our ethos down to every last detail, and we wholeheartedly welcome you to experience the elevated lifestyle in a space we believe is worthy of being a place you can call home.

Sangeeta Merchant & Sanjeev Panjabi, Founders of Spasm Architects

SPASM ARCHITECTS

Architecture for Ikebana

Spasm Design is a Mumbai-based firm that was established in 1995. They have a team of highly skilled and award-winning Indian architects.

Ikebana is our interpretation of a luxury living community, one that respects its environment. The premise being an arrangement, a position, a stance taken, where the material construct allows for lush greenery, pleasant breezes, and the natural light from the sun and the moon to be a part of everyday life.

We believe in the spirit of nature; we believe it to be the one true god. Ikebana is about living in reverence of Nature, which is the ultimate luxury.

Savita Punde, Founder Partner

LANDSCAPE DESIGN

Design Cell is an internationally recognised landscape architecture and planning firm established in 1987. As a multi-disciplinary international firm, Design Cell offers a wide range of professional services.

Ikebana, located in Ahmedabad, is a holistically approached community neighborhood where the building and landscape are seamlessly woven into one coherent solution. The building, nestled amidst the urban fabric, stands out from the low rising as a densely vegetated high-rise building.

The landscape approach of the project is to provide lush green environs while allowing social and functional spaces with environmental benefits.

**INSPIRED BY THE
HUES OF EARTH**

The terracotta facade is adorned by indigenous plants that emerge from right within your private decks. This, coupled with the I-shaped development, plays a vital role in moderating the micro-climate within this eye-catching residential precinct.

**VIEWS FOR
DAYS**

Lounge with a book or gaze upon a stunning sunset while sipping on some coffee. Your spacious, breezy decks are a dreamy retreat.

**LOOK FIT,
FEEL FAB**

You'll never want to skip another workout when you have access to the best equipment in your private gym that overlooks the designer landscapes.

**THE EARTH
LOUNGE**

The green pockets from the facade extend themselves into the podium, creating a calming aura as you drive into your home.

**A WARM
WELCOME**

Whether you're heading home or into the lounge, the lobby's breathtaking accents will always leave you spellbound.

THE EARTH LEVEL

The Earth Level exudes an enchanting aura that speaks of a relaxed, laid-back elegance extending out onto the magnificent outdoors.
